About This Game

EscapeRoute

A 2.5D platform game that will push your skills to the limit.

Will you stand up against the robots and win your freedom back ?

Its going to be tough but it's the only choice you have .

- Five levels of tense game play , Good looking graphics and a music that will get you into the action.
- You can play at any system (low or high end) by changing the graphic settings if needed.
- After you complete a level you can play it again at any time if you like.
- You can reset your progress at any time though this will not reset your top scores.
- This game supports GAMEPAD controls when in gameplay , you can connect your gamepad whenever you want or have it connected all the time , it still works.
- You should know that if you want to save your top scores (both of them) you should quit the game from the main menu , If you quit the game from anywhere else (pause menu for instance) you will lose it.

- Can you destroy all the robots you will find in your way and get the highest score possible ? You can try !!!
